

SHIPPING

PORTS HANDLING TRADE OF HAWAII

LONG DELAYS BETWEEN MAILS FROM COAST

The Hawaiian Islands will be served with mainland mail direct from San Francisco by the new trans-Pacific liners during the month of October, according to a list of arrivals and departures now in preparation by local postoffice officials, while twelve steamers are to depart from Honolulu in the California coast during that period.

The Japanese steamer Nippon Maru will be the first vessel to arrive from the coast, reaching Honolulu on October 6th. The Pacific Mail Monarch and the Matson Navigation Company's ship, the Wilhelmina, will follow the next day. The Logans, Tenny Maru and the Sierra are scheduled to arrive on the 12th or 14th. Then follows a break of eight days until the arrival of the Matson Navigation steamer Larline on October 24th. The Larline on the 25th, the Ventura on the 27th, the Wilhelmina the day following and the Hongkong Maru arriving on the 30th from the coast complete the list.

If the various schedules are followed to the letter, Honolulu will dispatch a daily mail for the coast by the way of San Francisco, beginning with the Ventura on Oct. 2nd and terminating with the transport, Sherman, on the 5th. Between the 5th and the 18th there are six mail steamers to the coast, namely the Wilhelmina on the 5th, Hongkong Maru 11th, Korea 14th, Honolulu 15th, Sierra Maru 16th and Sierra 18th.

There are no steamers listed for departure from the islands to California until the sailing of the Siberia on Oct. 29th. The Larline follows on the 31st and the Bonanza on Oct. 31.

With the American-Hawaiian freighters now proceeding from the islands to San Francisco direct, until the beginning of the movement of the 1914 sugar crop, one or more vessels may be added to the list.

New Battle Cruiser Completed.
The newly constructed battleship, the USS Oregon, which has been building at the Vickers Dockyard in London, will start on her voyage to Japan on the 22nd instant and is expected to arrive at Yokohama on the 7th of November. In this connection a certain naval engineer states that the Oregon was launched at Barrow, on May 18th last year. The same day the American battleship Texas, of 27,000 tons displacement, 30 knots speed, and with ten 14-inch guns, was also launched, but her armament has not yet been completed. This shows what a superior power of armament construction Great Britain possesses. The Oregon, on account of the difference of the type of vessel, is short by two guns as compared with the Texas, but surpasses the latter in gross tonnage by five thousand tons, and in speed by eight knots.

The schooner A. F. Coates, lumber laden, is enroute from Bureka to Honolulu and should arrive here the middle part of October.
